Alex Zhang

zhangming@example.com | +86 138-0000-0000 | github.com/yourname
<City, Country (UTC+X)> | <Availability, e.g. Available for remote internship, 4+ days/week>

Education

<University Name> <City, Country>
B.Eng. in Computer Science | GPA: <X.X> *<Sep 20XX – Jun 20XX>*

Technical Skills

- **Languages:** <e.g. C/C++, Go, Python>
- **Systems & Tools:** <e.g. Linux, Git, CMake, Docker>
- **<Domain skills line, tailored to the JD>:** <e.g. Distributed Systems: Raft consensus, MapReduce, fault-tolerant KV storage>

Experience

<Company Name> <City / Remote>
<Role, e.g. Backend Engineering Intern> *<Mon 20XX – Mon 20XX>*

- <What you built + how + quantified result, e.g. Developed and optimized order-service APIs; cached hot data in Redis, cutting P99 latency from 800ms to 120ms.>
- <Second bullet>

Projects

<Project 1 Name> <Mon 20XX – Mon 20XX>
<Tech stack line, e.g. C++17, multithreading, LRU, consistent hashing>

- <Core design + quantified result>
- <Second bullet>
- <Third bullet>

<Project 2 Name> <Mon 20XX – Mon 20XX>
<Tech stack line>

- <Core design + quantified result>
- <Second bullet>
